CARSON MILLER

URBAN & TRANSPORTATION PLANNING | GIS PROFESSIONAL

Salt Lake City, UT | (734) 756-0392 | carsonmillerw@gmail.com

PROFESSIONAL SUMMARY

City Planning and GIS professional supporting land use, transportation, and community planning projects, from existing-conditions analysis and public engagement through final plan documents. Skilled at synthesizing community input, best practices, and turning spatial analysis into clear, actionable recommendations for agencies, municipalities, and the public.

EDUCATION

University of Utah — ***Bachelor of Science in Urban Ecology*** *(City Planning)*
Minor: Multidisciplinary Design | 2019-2023 | GPA: 3.75

University of Utah — ***Graduate Certificate in Geographic Information Systems*** *(GIS)*
2025–2026 | GPA: 4.0

University of Copenhagen — ***Bicycle Urbanism Studies***
(International planning & sustainable mobility)

PROFESSIONAL EXPERIENCE

Planning Specialist & GIS Analyst | Bike Utah — Salt Lake City, UT | Jan 2025 – Oct 2026

- Support active transportation and safety planning projects for Utah municipalities, from existing-conditions analysis through recommendations and final deliverables.
- Conduct network-connectivity, land use, and accessibility assessments to identify gaps and priorities that inform transportation and land use planning recommendations.
- Synthesize community engagement, survey, and field data with technical analysis into reports, planning maps, dashboards, and visual deliverables for public agencies, stakeholders, and the public.
- Manage spatial data and geodatabases (digitization, validation, QA/QC).

GIS Intern | City of West Jordan — West Jordan, UT | July 2026 - Present

- Support Planning and Engineering department projects by maintaining parcel and property boundary data and coordinating with staff to keep records accurate for development review and land use decisions.
- Prepare maps and web applications for permitting, development review, and land use decision-making, working directly with property and site-level data.
- Perform data validation and QA/QC on municipal spatial datasets and geodatabases, correcting attribute and geometry errors to keep records accurate and audit-ready.
- Automate recurring data-maintenance and mapping tasks with ArcPy (Python) and ArcGIS Online, speeding up turnaround on routine staff requests.

TECHNICAL SKILLS

ArcGIS Pro, ArcGIS Online, ArcGIS Enterprise | Spatial Analysis & Cartography | Transportation & Active Mobility Planning Support | Technical Writing and Document Editing | ArcPy (Python) | Geoprocessing & Automation | Survey & Community Engagement Data Integration | QA/QC & Data Management | Microsoft Office

INTERPERSONAL SKILLS

Independent work ethic | Cross-team collaboration | Client relationship management | Problem solving | Attention to detail | Written and verbal communication | Interdisciplinary communication | Quality assurance mindset
