Minor: Multidisciplinary Design | *2019-2023* | *GPA: 3.75*

University of Copenhagen — ***Bicycle Urbanism Studies***
International planning & sustainable mobility | 2023

CERTIFICATIONS & LICENSES

University of Utah — ***Graduate Certificate in Geographic Information Systems*** *(GIS)*
2025–2026 | *GPA: 4.0*

Federal Aviation Administration — **Remote Pilot Certificate, Small UAS** (FAA Part 107)
Commercial drone operations and flight-safety regulations for aerial imagery and data collection | 2026

PROFESSIONAL EXPERIENCE

Planning Specialist & GIS Analyst | Bike Utah / Place Builders — Salt Lake City, UT | Jan 2025 – Present

- Support transportation, safety, and land use planning projects for Utah municipalities, from existing-conditions analysis through recommendations and final deliverables.
- Conduct network-connectivity, land use, and accessibility analyses to identify gaps and priorities, building and maintaining the underlying geodatabases (digitization, validation, QA/QC).
- Synthesize community engagement, survey, and field data with technical analysis into reports, maps, and dashboards for public agencies, stakeholders, and the public.

GIS Intern | City of West Jordan — West Jordan, UT | July 2026 - Present

- Maintain and QA/QC parcel, property boundary, and other municipal spatial data for Planning and Engineering, correcting attribute and geometry errors to keep records accurate and audit-ready.
- Prepare maps and web applications supporting permitting, development review, and land use decisions.
- Automate recurring data-maintenance and mapping tasks with ArcPy (Python) and ArcGIS Online, speeding turnaround on routine staff requests.

TECHNICAL SKILLS

ArcGIS Pro, ArcGIS Online, ArcGIS Enterprise | SQL & Relational Database Design | Spatial Analysis & Cartography | Transportation & Active Mobility Planning Support | Technical Writing and Document Editing | ArcPy (Python) | Geoprocessing & Automation | Survey & Community Engagement Data Integration | QA/QC & Data Management | Microsoft Office

INTERPERSONAL SKILLS

Independent work ethic | Cross-team collaboration | Client relationship management | Problem solving | Attention to detail | Written and verbal communication | Interdisciplinary communication | Adaptability | Quality assurance mindset
